

Delaney Road Wetland Mitigation Bank  
Lake County, Illinois

Developed by: Land and Water Resources, Inc. (LAWR) and EcoLogic Planning Inc.  
(EcoLogic) d.b.a. Wetlands Mitigation of Illinois, LLC

This bank was permitted through Lake County to satisfy their ordinance requiring mitigation for isolated wetlands. This ordinance is a reaction to the SWANCC case bringing the jurisdiction of isolated wetlands into question. The first phase, 20 acres, has been permitted. The remaining phases will likely be added in 2002. Construction is scheduled to begin August 1, 2002.
