STREAM AND WETLAND MITIGATION

APPLEWOOD MITIGATION BANK

Applewood Mitigation Bank is owned and managed by Mitigation Resource Group of Alpharetta, Georgia. The bank is located in Lumpkin County in the Etowah River Basin. The 150 acre property was approved by the U.S. Corps of Engineers as a commercial stream mitigation bank in July of 2008. This project has resulted in 27,000 linear feet of stream restoration and 12,000 feet of riparian restoration and/or preservation.

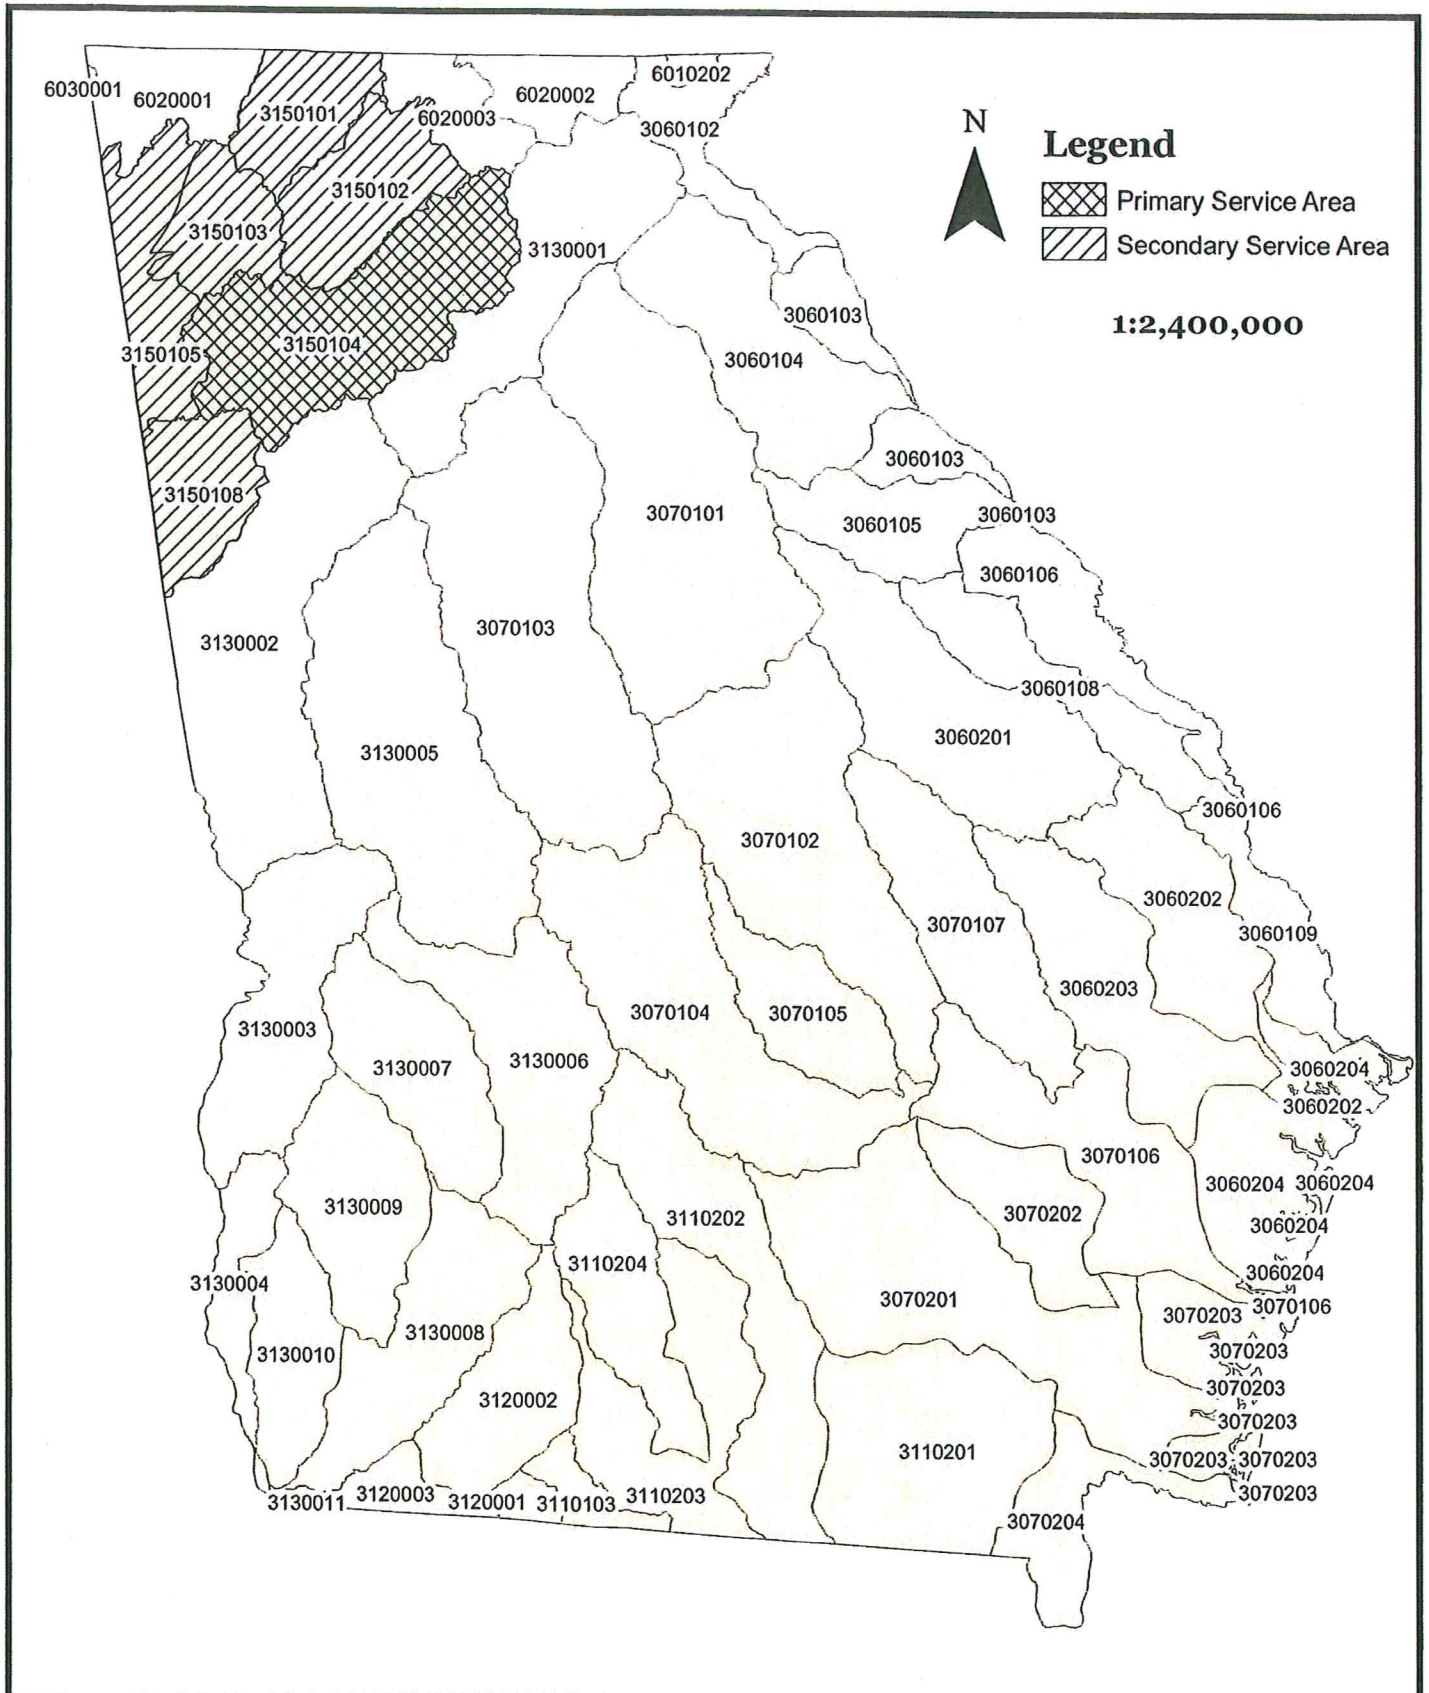

Applewood MB's primary service area is the Etowah River Basin, but it is also capable of serving the Upper Coosa, Coosawatte, and Oostanaula River Basins in its secondary service area.
